

Didactic notes

Inflation

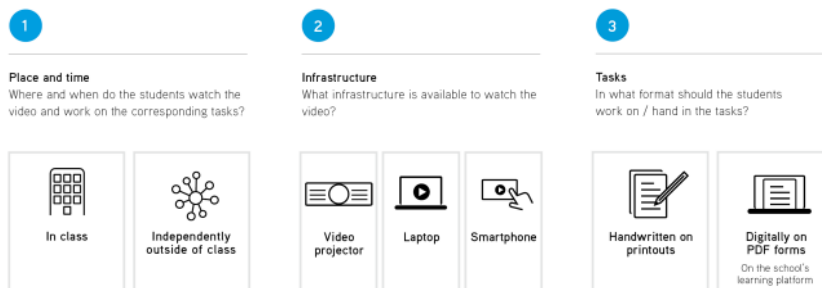

Didactic notes

This video topic block is designed to be used in the classroom and can easily be integrated into existing teaching sequences. It is well suited as an introduction to the topic of inflation.

Lesson preparation

How are the students supposed to watch a video and work on the corresponding tasks at the same time?

The following overview provides some clarity.

Teaching scenario

These specifications result in the appropriate teaching scenario for your lesson plan. Here are four common scenarios (for simplicity, no distinction is made here between in-class and out-of-class activities):
